PROJECTS

Construction-Site

This is a basic construction project made for people who are looking for designs and places for construction. It shows a variety of catalogs of designs.

Languages - HTML || CSS

Python-ATM-Experince

It's a simple program for a person to go to an ATM machine ... where he/she can see or experience ATM machine using this code. In this, I have tried to make a program in which we can create the pin, deposit, withdraw.
