EDUCATION

OP Jindal University, Raigarh – *BTech*

July 2019 - July 2023

CGPA – 7.2

ST. Mary's Higher Secondary School, Jharsuguda — *XII*

May 2018 - April 2019

Aggregate – 57.6

ST. Mary's Higher Secondary School, Jharsuguda — *X*

April 2017 - March 2018

Aggregate – 66.3

EXPERIENCE

Exposys Datalab | Data Science Intern – *Remote*

Aug 2021 - Sep 2021

- Data Collection : Dataset repositories, retrieving dataset using Sklearn library and Tensorflow frameworks
- Data Analyzation : Read collected Data, Exploration and visualization of Data.
- Data Selection : Data featurization and selection of only required data for optimized training.
- Model Creation : Creating model using Sklearn library then fitted and validated after parameter tuning.
- Model Evaluation : Evaluation of built model on training data and estimating model's performance metrics.

Languages - Python, Framework - Tensorflow, Library - Sklearn etc.

View Certificate

C.V. Raman Research Center, DIAT | ML Intern– *On-site*

Oct 2022 - Mar 2023

- Started with Python and its fundamentals with libraries.
- Learned about how to deal with data collection, data selection, data cleaning, data featurization and data generation.
- Learned and Trained various ML(i.e., Supervised ML e.g. Classification) Algorithms on different Datasets.
- Trained different datasets on Neural Networks using different models for image classification.
- Worked on deployment of CNN models into a system application using Tkinter for making GUI.

CERTIFICATES

Machine Learning

View Certificate

Introduction to Data Science

View Certificate

Introduction to Git and Github

View Certificate

Complete Web Developer Course 3.0

Ongoing

SKILLS

Programming Skill

C, Python

Designing Skill

HTML, CSS, Javascript, Bootstrap

Practicing Skill

Machine Learning - Tensorflow, Keras, Sklearn

Tools Used -

Python Frameworks – Tensorflow

EXTRA-CURRICULAR ACTIVITIES

Exhibition Expo Event Manager

Help the team to manage and organize events successfully.

And develop the leader qualities via leading the team.

Art and Craft

I used to draw mainly cartoon characters and paper crafting.

PROJECTS

Construction Site

May 2022 - June 2022

This is a basic construction project made for people who are looking for designs and places for construction. It shows a variety of catalogs of designs.

Languages - HTML || CSS || BOOTSTRAP

[View Progress](#)

FlipZone

June 2023 - Present

This is a clone website of flipkart and amazon, used for shopping remotely. It shows numerous products that go with trends.

Languages - HTML || CSS || JavaScript
